

**Are you just  
marking time?**

**Isn't it time you  
made your mark?**

CPPs are recognized worldwide as security management professionals who represent the highest standards of experience and knowledge. Many leading companies and government agencies see the CPP as a prerequisite for advancement among their managers. Why not set your sights on a career of distinction and promise?

You've already taken the first important step in applying to take the CPP exam. Now that your eligibility has been approved, you have three opportunities to pass. Keep in mind that should you need it, you have three months in which to take the exam between your first and second attempts, and six months between your second and third. Call the Prometric Candidate Service Center at **1-800-699-4975** to reserve a convenient test date and location.

*...won't this credential look  
impressive after your name?*
